8. Reports
    - **Chair's Report**   Craig Kutil
      Craig Kutil stated that there has been a AP Policy change, which may only effect Music and Computer Science. This change creates a universal policy regarding what AP score the college must accept. This will be a discussion item for the next meeting. The Chancellor's Office is changing the program and course approval process. This will give the VP more power with regard to approving curriculum. More information is still needed. There is going to be training regarding to this policy change at the district. This will make the role of the Curriculum Committee even more critical.
    - **Articulation Officer's Report**   Marina Lira
      Marina Lira asked the committee members to take back to their divisions, that with ASSIST transitioning to their new system no GE has been reviewed. Normally she would be providing all departments with their GE feedback this week, but currently the system is down. The transition is not expected to be completed until mid to the end of May.
    - **Curriculum & SLO Specialist Report**   Madeline Wiest

Madeline Wiest stated that the catalog revisions to the 17-18 are quickly coming to a close and the catalog will go to print in about a week and a half. The draft catalog pages are currently at the division offices, for faculty review.

9. **Good of the Order:** Craig Kutil stated that catalog descriptions of the general program, not degree or certificate, will be an item that will be coming to the Curriculum Committee as a discussion item and should be added to the program review. Many of the program descriptions are incorrect or are actually a description of the AA-T.
