X. Announcements
XI. Adjournment
I. Ms. Reynoso called the meeting to order at 1:04 pm.

II. Roll Call

Officers:
Rafi Ansari (UNEXCUSED LATE)
Paulina Reynoso
Olga Salgado (UNEXCUSED LATE)
Ashley Landicho
Stephanie Plascencia
CJ Singh

Senators:
Antonio Aguilar
Eric Bolin
Brandon Byrne
Omar Elgarguri
Alejandra Garcia
Jose Gutierrez
Claire Huestis
Alexander Ivanov
Priyanka Jariwala
Nancy Kang
Alexandre Nguyen
Keller O'Rourke
Luis Perez
Eric Pineda
Shanan Sahota (EXCUSED ABSENT)
Ciera Soliz
Joel Rowland

III. Adoption of the Agenda
- Mr. Byrne moved to adopt the agenda for October 17th, 2014.
- Mr. Singh seconded.
- Motion passed unanimously.

IV. Approval of the Minutes
- Mr. Elgarguri moved to approve the minutes for October 3rd, 2014.
- Mr. Pineda seconded.
- Motion passed with 4 abstentions.
- Ms. Soliz moved to approve the minutes for October 10th, 2014.
V. Officer Reports

A. President:
Mr. Ansari did not have a committee meeting this week but will have 4 meetings next week. He sent out the floor plan on new building to everyone to evaluate. Mr. Ivanov sent him a new set of rules of order and CBRC. He also emailed all the clubs about cabinet space for mid-semester review.

B. Vice President:
Ms. Reynoso went to her committee, attended her office hour, and thought of new ways to improve student government.

C. Director of Legislation:
Ms. Salgado was not present at this time.

D. Director of Communications:
Ms. Landicho helped with the Sports task force, worked on her workshop proposal and said she will be ordering office supplies after the meeting.

E. Director of Events:
Ms. Plascencia worked on ideas for Rave night, is planning a small event before finals, and has been in contact with 2 vendors.

F. ICC Chair:
Mr. Singh attended his office hour, met up with club presidents, and attended Diwali night.

G. Senators:
Mr. Ivanov said that some people weren’t considering their office hour that important. He saw some people do facility requests for the retreat and committees. He added that some people asking for signatures were getting aggressive, referring to the volunteers that were visiting campus to request student signatures to get certain measures on the ballot. They’ve been asking for signatures in front of the 1600 building, and have been aggressive in both asking for signatures, and in harassing female students.

H. Committee Reports:
- Ms. Jariwala attended the Curriculum and Food services committee. She said there were a few class proposals for theater, new water polo programs for men and women, and new technical theatre courses.
- Mr. Elgarguri attended the Institutional Effectiveness committee where they discussed improvement plans delegating to other committees. They discussed 10 college goals that were said to expire next year but might be cancelled early. He added we may be asked to go to more committees soon.
Ms. Huestis attended the Hiring committee where she said that they are forecasting what they think the budget will be for Shariff's academy. They get paid at the end of every semester and have to compensate for that in other areas. Fast-track classes start on October 20th.

Mr. Nguyen attended the Technology and Coordinating committee where they are in the midst of changing all the professors’ emails. They will be having a site to train these professors on using outlook.

Ms. Reynoso attended the Nike Funds committee. The art panels in the P.E. building are being posted but they are having issues on having it stick to the wall. In the music building, they are thinking of having statues 6 ft high, including a saxophone player, a percussionist, and a bass player.

I. ASLPC Advisor:
Mr. Miner was not present at this time.

J. Student Trustee:
Mr. Bolin said that his meeting was moved to 2 weeks from now.

VI. Guest Speakers
- Mr. Rowland moved to suspend the orders of the day at 1:18 pm.
- Ms. Jariwala seconded.
- Motion passed unanimously.

Douglas Horner along with Jonathan McMurtry presented the floor plan of the new building to get input from students. In 2004, the district approved to sell 490 in bonds which were used to build. They spent 85% of those funds since then. The new building is budgeted at $27.4 million, which will take up 40,000 square feet and include more classrooms and labs. Every 5 years, a college looks at its master-plan, what they are teaching, what their needs are (i.e. courses), and what facilities they need. Mr. Horner said that enough is happening out there to revisit the educational master plan and that there’s nothing in the ed. code that says it expires. The overall consensus is that is been enough time to look at the ed. plan. The 100, 200, and 300 buildings will need to be removed to build the new building.

There will be a large utility quarter there and they have to make it fit on Day 1. 17000 square feet will be used for lecture, 10000 square feet for lab, and 1000 square feet for office (student assistance space, maybe tutoring). They have to know what kind of spaces they're short on. The committees decide how the program will be divided up. This includes the Space Allocation committee and the Facilities committee. Open areas to gather for soft future has been requested a lot. Bldg. 100 is currently vacant.

Photography will be relocated to Bldg. 700. The portables will be on the lawn. Once it’s built, Bldg. 1300 will be remodeled to move the veterans into. The copy center is part of the SSA project and will be removed. It is actually a fire code and is too close to the new building. Bldg. 1700 should be finished by end of this month. They will keep the same geography. The new building will have a steel frame, insulated metal panels with glass, and a mix of different materials on the outside.
The Space Allocation committee is made up of Math, English, and Comp Sci members. Class labs will have computers that pop up. The intention is for labs that are multi-use and flexible. All the designs are 1000 square feet and will have the same number of students but depending on the arrangement, the deficiency ranges. Different instructors have different methods of teaching and designers have to accommodate that. One lecture room will be able to accommodate 120 people. They will have one movable room which will be tiered so it steps up.

The student lounge, or the atrium space, will be on the first floor and be approximately 3000 to 4000 square feet. It will be a large, open space that will have a coffee trolley and furniture for students to both socialize and study. Bldg. 100 will have numbers on the doors but it is not owned by anyone yet. Doors have to be exterior-proof and sound-proof and a lot of work will be focused on the acoustics of this building.

Some parking space might be lost during construction. The oak trees won’t be touched outside of bldg. 100. Construction will be taking place all day, a Monday through Friday project, 40 hours a week. All the harsher construction will be taking place over the summer when fewer students are here. They are expected to finish the project in fall of 2016. Construction will start next spring, when they will have the contractor. They will have a color scheme but it will be open for discussion. New furniture will be installed in April of 2018.

There will be 4 portables since we are losing 4 lectures. The second floor will have a skyline to see directly below. All the tables in the labs will be movable. When we give students tours for the amphitheater, it will eventually be replaced with concrete. It was too maintenance intensive and was ignored often. Amphitheater renovation will be done in January and how it will be used is up to the campus. The expectation is that the college campus will continue to grow and we need to keep it fully utilized.

- Merlin Martin presented and wanted to let student government know about ways to include people with disabilities such as himself in other events on campus. He interacted with 34 charities and 4 foundations of mental health. He worked for Alameda County Fairgrounds for 18 years as a janitor and saw many events. He spent 3 years with toastmasters club. The smallest organization that can be assembled is at $25000. He was hoping to enlighten us by pairing up with someone with a disability and teaching them to become event planners in their own lives.

- Mr. Elgarguri moved to reinstated the orders of the day at 2:21 pm
- Ms. Jariwala seconded.
- Motion passed unanimously.

VII. Public Forum
- Yuki and Kevin introduced themselves.

VIII. Old Business

A. Tutorial Center Donation
- Ms. Jariwala, Mr. Miner and Ms. Salgado looked at the rules for giving money to places as salaries and determined that the administration building should be paying for salaries, not student government. Pauline Trummel will be notified later next week.
B. Math Jam Donation
- Ms. Reynoso moved to postpone this item to a definite date of October 24th, 2014.
- Mr. Nguyen seconded.
- Motion passed unanimously.

C. D.C. Trip Debrief
- Mr. Perez showed pictures from the trip. Everyone shared about their experiences on the D.C. trip. Ms. Salgado said that we met and networked with a lot of people. Mr. Ansari is planning to skype with a student president from Mississippi. Mr. Ivanov took over for a roundtable seminar and added that it was good since the old officers didn’t network as much. Mr. Bolin attended workshops focused on PR, worked and surveyed students, and discussed possibly pushing back the election date. Mr. Perez said he talked to other students and companies full of ideas, and talked to an mtvU representative who will be sending us more stuff.
- Mr. Miner was proud that we represented the students well. The ASGA conference had 28,000 students and lots of diversity as far as schools so the time and effort there was well-spent.

IX. New Business

A. Advocacy Day
- Ms. Salgado moved to postpone this item to a definite date of October 24th, 2014.
- Ms. Salgado was unprepared to do Advocacy day at the time. With Hugh Bussell, we will be able to ask about ballot measures.
- Ms. Jariwala seconded.
- Motion passed unanimously.

B. Guerilla Marketing
- Mr. Bolin presented in place of Ms. Sahota. For guerilla marketing, he emphasized face-to-face interaction and the several ways to advertise for an event. He suggested talking to people and passing out flyers yet still giving them privacy. Be assertive, talk to people and utilize resources that you're given.

C. Letters and Resolutions
- Ms. Salgado moved to approve Resolution 1406.
- Mr. Ivanov seconded.
- The mission of LPC students is to provide needs to advocacy. The resolution is to make the half-sheet flyers mandatory due to the overcrowding of 8x11 flyers.
- Ms. Soliz requested Ms. Salgado present this to ICC as an agenda item.
- Ms. Moore said to change International Club Council to Inter-Club Council.
- Suggestions also included some kind of wording to add at the end “except where otherwise noted”. The goal of this document should be to work its way through college council to stop putting big posters up. When most clubs post things, they don't think about the external bulletin boards. People needed clarification on where big posters and half sheet flyers are allowed to be posted.
Ms. Salgado moved to retract her motion to approve Resolution 1406.
Ms. Soliz seconded.
Motion passed unanimously.

D. Technology
Mr. Perez moved to postpone this item to a definite date of October 24th, 2014.
Mr. Pineda seconded.
Motion passed unanimously.

E. Ballot Measure
Ms. Salgado presented her ballot measure. The water bond would authorize $7.12 billion in bonds for state water and supply infrastructure projects. It would require certain projects to provide matching funds from non-state sources in order to receive bond funds. It appropriates money from the general fund to pay off bonds over a period of 40 years.
The goal is to protect and restore watersheds funds to improve groundwater and surface water funds for floor protection and water supplies.
Governor Brown's measure is fiscally responsible. It won't raise taxes since it reallocates money from $425 million in unused bonds. It will store water when we have it for use in dry years. The water bond is necessary after many years of evading enforcement of regulations and we need a balanced plan crafted by scientists, not politicians.
The opposed side says that the project will only increase water supply by 1%, and the water bond wrongly focuses on building of more dams; groundwater is starting to sink really badly.
The bill is proposing 2 twenty foot diameter tunnels across the Delta. It will pull up water from Sacramento and divert water from going to Southern California. Northern California is the construction of those 2 tunnels. There are only a few places to build a dam in the hills in the further southern portion of the Central Valley.
Some arguments against the bill were that voters that would gain most from its passing are located primarily in Southern California. Northern California, on average, has conserved 15% of water, while Southern California has conserved 7%.

X. Announcements
Ms. Soliz requested any statements on how community college is a good experience for high school outreach.
If you are part of any club(s), let them know that we are working on getting them cabinet space.
Mr. Miner announced there are 2 scholarship applications that everyone is free to apply.
Ms. Huestis announced that AS night is on Thursday, October 30th from 4-7 pm.
Mr. Perez requested all the officers to send him short descriptions and pictures of themselves.
Ms. Salgado announced that Hugh Bussell, the Republican candidate for the 15th Congressional District of California, is coming on Wednesday, October 29th.
APPROVED

- Mr. Miner handed out the results from the score cards last week and we collectively scored ourselves as 77/100. There is always room for improvement. He will show the actual numerical results next week.
- Mr. Byrne would like to meet with his Sports task force after the meeting.
- Ms. Reynoso announced senator confirmations: Jose Gutierrez, Alejandra Garcia, Alexandre Nguyen and Brandon Byrne

XI. Adjournment
- Mr. Elgarguri moved to adjourn the meeting at 3:38 pm.
- Ms. Jariwala seconded.
- Motion passed unanimously.
