

Accessibility Checklist

- Content exceeding $\frac{3}{4}$ -page is chunked using meaningful section headings
- Heading styles are nested in sequential descending order
- Images have appropriate alt text (or long text descriptions, if necessary)
- Images not related to page content are tagged as decorative
- Link text is meaningful and in context
- Underlining is not used for emphasis
- Color contrast is sufficient
- Color alone is not used to convey meaning
- Lists are formatted using the default list tool
- Tables have properly tagged column/row headers
- Tables do not contain split or merged cells, empty cells, rows or columns, or nested tables
- Videos have accurate captioning (not auto-generated)
- Audios have appropriate transcripts
- Video/audio media players are not set to auto-play
- There is no flashing, blinking, or moving content
