

Choose either 3a OR 3b **(15 pts)**

Grading is based on making a concept map with arrows and linking words (action verbs). You may use additional terms or drawings, if needed, to aid your explanation.

Here's the grading rubric I created for this question

	4-5	2-3	0-1
Connections between concepts	Clear relationship between concepts. Hierarchical organization from components to sub components	Relationship between concepts evident. Components and subcomponents present	Unclear relationship between concepts. Components and sub-components unorganized
Cross-linkages	Logical linkages. Clear and thorough explanation of links using expressive and purposeful words. Information is clear, accurate, and precise	Logical linkages. Explanation of links using simple and repetitive words and/or is unclear. Information is mostly accurate	Linkages do not make sense and are not explained. Information is inaccurate
Knowledge	Concept map illustrates extensive knowledge of topic and uses additional terms not provided	Concept map shows a fair amount of knowledge using only the terms provided	Concept map does not show a strong knowledge of the topic due to vague or incorrect relationships and/or does not incorporate all the terms
