## Candidate for LPC STUDENT TRUSTEE

### **1. Why do you wish to run for the LPC Student Trustee position?**

The position for LPC Student Trustee is the next step towards my career in STEM and Politics. It will give me genuine experience within representing a group of people in a board setting. Above all, the sentiment of service. When I was part of the ROTC military training program I learned that the emotion delivered onto me, from the amount of organization and completion of actions for change the people cry out for, is worth every sacrifice one makes for their smiles.

### **2. Please list your current or past leadership experience.**

Before I was American, I sought to learn from the teaching of people from all countries and cultures. I brought that to highschool where I used my polyglotism to connect people to the amazing opportunities my school offered. From being an officer for the Academic Decathlon, Science Olympiad, and working together in our football team, to discussing various options concerning the International Baccalaureate during COVID.

### **3. What makes you stand out compared to other candidates for the position you are applying for?**

As a current Senator for LPCSG, I have read the various rules our college follows. I have financial experience, specializing in taxes, for monetary discussions. Being born abroad I have also come to understand and relate to poverty and the great challenges everyone goes through. All this to give way for more success and opportunity to our peers.

### **4. What aspects of student life would you seek to improve? How would you do so?**

Being an Engineer, I've come to acknowledge the great detachment from majors and higher opportunities like available internships. I wish to seek out additional opportunities so that the diaspora of all majors may frolic. So that if anyone wishes, they can have access to a brighter future. I particularly treasure the many LPC workshops and their ability to create more intriguing learning environments. Making them easier to access for academic prowess.

## Candidate for LPC STUDENT TRUSTEE

### **1. Why do you wish to run for the LPC Student Trustee position?**

Las Positas is a thriving college with a dynamic student body. In my three semesters here, I have shared incredible experiences with students and taken advantage of many academic opportunities this institute offers. Now with the experience and knowledge that I have gathered over the years, I want to give back to the college. I want to represent students' interests, plan college events, and serve the student body.

### **2. Please list your current or past leadership experience.**

In high school, I founded the Stock Market Club and led weekly meetings tracking the market. The club was also nominated as the most unique club. Currently, I am working as a part-time intern with Rchilli, a software company. Once every two months in the summer, I represent the company at trade shows where my responsibilities include setting up the trade booth, socializing with other company executives, and capturing sales leads.

### **3. What makes you stand out compared to other candidates for the position you are applying for?**

My time-management skills. I believe my ability to work productively makes me most suitable for the student trustee position. The student trustee is responsible for numerous tasks alongside college coursework. I believe I am used to that kind of workload. For instance, I have completed 4 honors projects and 68 units with straight A's in just three semesters. So I believe I will adequately carry out my duties and properly voice student opinions.

### **4. What aspects of student life would you seek to improve? How would you do so?**

The most significant thing I want to improve and be a part of is students' online to in-person transition. There is incredible equipment and technology in the classrooms, but they are all catching dust due to the pandemic. I believe incentivizing students to come to campus and exposing them to the equipment and perks will make them want to return and utilize the campus.
