

International Education Week CLPCCD Panel Planning for a "Global" Education

Despite the current limits on our mobility caused by the COVID-19 pandemic, our present and futures are defined by the connections we make with people different from ourselves, whether at home or abroad. Join us at one or both of these online gatherings, where students and faculty can learn more about international education!

LPC-hosted panel: Thursday, November 19, 3-4 pm

This panel will provide students with information on all kinds of opportunities for a global education, whether semester- or year-abroad for credit programs or other travel and service learning opportunities. It's never too early to start planning! Information about financial planning and scholarships for these opportunities will be shared as well. <https://cccconfer.zoom.us/j/92926061199>

Chabot-hosted panel: Thursday, November 19, 4-5:30 pm

This panel will focus on the journeys of our Chabot and LPC international students: come hear about students' successes and challenges!
