

Area	Student/Faculty Staff	Comment	Notes	Completed/Not Completed
General	not disclosed	ADA Compliance. Has noticed there are a lot of 3-4 step level changes on campus. This makes it a very difficult space to navigate for anyone who is anything less than fully able-bodied. Wheelchairs, crutches, and mobility aids of other kinds are forced to go around buildings to a different entrance, effectively segregating them from the rest of the population. What is being done to minimize this with the new construction? Most of these spaces with stairs would be equally well served with a ramp that would accommodate every body.	Make sure this is addressed in the FMP.	p 44, 61
General	Student	ADA Compliance. Please consider wheeled students/faculty when planning routes around campus. It is not welcoming if they are treated as a mandatory after thought.	Make sure this is addressed in the FMP.	p 44,61
Biology	Student	Bio 1A, 1B, 1C, Gen Chem, Physics are impacted!!!! Fix that so you can take O Chem and Bio at the same time. For the past year it has been impossible. Hire more professors and more classes.	Addressed in Phase 1 projects	
Bldg 4000	Student	Bldg 4000 is listed as completed 10/18 on page 122, but is also listed as having a sq. ft. expansion/add. Can you please clarify?	Will adjust this in the FMP and make clear to readers of the plan. This is a Renovation Project in Phase 2 project listing.	p 122
2nd Floor Cd	Faculty	Bldg 4000. Expand piano lab for ADA compliance & 4240 for extended computer lab space	Addressed Renovation of B4000, Phase 2 Projects	
General	Faculty	Bldg 4000. Instrument storage - practice rooms	Address in FMP	p 105
General	not disclosed	Break Room	These are included in projects - Addressed/comment in FMP	Refer to draft programming- this is included in most buildings
General	Faculty	Building roundabouts as a transportation alternative to stop lights/signs. Are there any areas where a round about would make sense?	addressed in FMP - Infrastructure Project at Issabella and Campus Hill Drive	
General	Student	Burn Room	Addressed in approved projects.	
General	Student	Cafateria	addressed in FMP - No New Cafeteria at this time.	
General	Faculty	Choir Room with appropriate acoustics	Renovation of B4000?	p 105
General	Faculty	Clarify what commercial music/radio space will house. Recording studio?	Be more definitive in FMP Page 176 of FMP	p 105
General	Student	Clean Room		
General	Student	Club Space	Provide location of this item. Student Center?	This is on p 108 (bullet 1, unchanged)
General	Student	Communal Garden	Addressed in FMP - AG. Hort Project	
General	Student	Communal rooms for study and comrotery		Refer to draft programming- this is included in most buildings
General	Student	Compost Areas	Addressed in FMP - AG. Hort Project	
General	Student	Computer Lab	Addressed in FMP new Projects	
Art Gallery	Faculty	Conversion of art gallery into costume storage	Part of Renovations B4000 Phase 2 projects	
Costume Storage	Faculty	Conversion of costume storage to piano storage		This level of detail is not covered in this plan
General	Student	Covered Walkway - consider reating overhangs/porches to form a covered route between as many buildings as possible in our climate of blazing sun and pouring rain.	College to add note in FMP that this will be looked into in the future.	p 57
General	not disclosed	Covered Walkway - form something like an awning or pergola and put solar panels to boost solar electric production.	College to add note in FMP that this will be looked into in the future.	p 57
General	not disclosed	Covered Walkway - I'm all for properly planned and planted shade trees rather than some other foolish artificial shade structure, but the one thing trees don't do is block rain, especially when the atmospheric rivers let loose - you need a covered walkway for that when transversing the long campus backbone. Recently, while observing the student traffic on a rainy day, I noted only about half (at most) carrying umbrellas - the rest bundled up and dashed or slogged to their destinations.	College to add note in FMP that this will be looked into in the future.	p 57
General	not disclosed	Covered Walkway - I've heard people say the LPC campus should have a strong backbone, but the old "backbone" a covered walkway that stretched from building 100 to Building 800 is fast being eaten away by demolition for new constructino.	College to add note in FMP that this will be looked into in the future.	p 57

General	Student	Culture Center	Address in FMP Student Center	p 108
Bldg 1000	Student	Decorate Bldg 1000 please!		
Safety	Student	Dedicated EMS skills room. One of the most important aspects of EMS is being good at skills. A room should be created where students can come and practice their skills in their free time. Cameras or a student ID could grant access to the room and prevent theft. The room would be stocked with dummies and supplies for students to use.	Addressed in FMP identified in New Project	
General	Student	Environmental Sustainability. Would love to see LPC become more eco-friendly, so more native landscaping is great. I want to see better composting/recycling bins around campus to reduce landfill waste.		
General	Student	Event Space	Addressed in FMP - B2100 Project	
Humanities	Faculty	Event/Meeting Space dedicated to Humanities. Cluster for film viewing, philisophical discussions, synposiums, etc.	Addressed in FMP - B2100 Project	
Bldg 4000	Faculty	Expand 4226 and design media lab.	Renovation of B4000 - Phase 2 project	
General	Student	Extractor to clean the academy turnouts.	Addressed in FMP identified in New Project	Mentioned 5 times
Library Build	Student	Finish library building	Addressed in FMP - B2100 Project	
Gym	Student	Finish New Gym	Addressed in FMP	
Safety	Student	Fire Tower basement addition	Addressed in FMP	Mentioned 10 times
General	Student	Fitness Center	Addressed in FMP	
General	not disclosed	Fitness Center	Addressed in FMP	
FMP	Staff	FMP Page 106 - Both text and diagram mentioned adjunct faculty.	Please revise to Part-time Faculty in luie of Adjunct Faculty.	done
FMP	not disclosed	FMP Page 106 - Shared Learning Labs, sq ft total is not correct, check addition.	change to address comment	Half will be created in Phase 2
FMP	not disclosed	FMP Page 106 - Shared Learning Labs, sq ft total is not correct, check addition. Lab support add 1815 to current location and remove 1803. Special Labs add 1803 to current location.	change to address comment	made it 3 smaller labs, not 2
FMP	Staff	FMP Page 106 - Under Chemistry, special labs are currently 1806 and the small room attached to room 1807, but not 1807 itself. Not sure of the room number for the small attached room.	Changed to address comment	took out 1807
FMP	Staff	FMP Page 106 - What does table 5.18 mean? Does this mean that we will start renovations for the 1st floor and 2nd floor labs? What is the plan for the renovation of the chem and bio labs in 1800? We need to expand physics and engineering into those spaces and that would need to be in phase 1.	Provide additional bullets for this item to be clear on Renovation description is not clear for readers	Completed
FMP	Staff	FMP Page 11 - Engineering Technology is listed under Advanced Manufacturing, I recommend this go under Professional and Technical.	Changed to address comment w/ Vicki Shipmans hellp.	done
FMP	Staff	FMP Page 114 - There is a sculpture/ceramics listing under Horticulture. Looks like it should be separated from Horticulture.	Please change this table and have the heading for Ceramics /Scupture under STEAM	done
FMP	Staff	FMP Page 14 - Employers of note should include LLNL and Sandiea National Lab; Workday, not Workdays	Changed to address comment	
FMP	Faculty	FMP Page 160 - This is a picture of Chabot not Las Positas.	Remove Photo and replace	Changed
FMP	Staff	FMP Page 40 - "Faculty members have also reported that it is difficult to fill classes outside of peak hours." This statement should be qualified with "some faculty report....while other programs are overfilled at all times of the day, including evenings and early evenings."	Changed to address comment.	done
FMP	Staff	FMP Page 48 - Building 700 has more than one computer lab.	make last sentence state "labs"	done
FMP	Staff	FMP Page 88 - "flower" diagram "petal" should show "computer studies labs" instead of "computer science labs"	change to address comment	done
FMP	Staff	FMP Page 88 - Both text and diagram mentioned adjunct faculty.	Please revise to say Part-time Faculty in luie of Adjunct Faculty.	done
General	Student	Food Pantry	Addressed in FMP	
General	Student	Food/Kitchen area near tower everything very far away	Addressed in FMP	this was requested 12 times

Safety	Student	Gym in Public Safety Building.	Not specifically a Gym, but space is identified in the project	This was requested 13 times
General	Student	Gym w/o instructor attendance	This is not allowed at this time	
General	Faculty	Gym, put in lot P not on existing soccer field. Save funds and space for the replacement field currently planned.	Addressed in FMP	
General	Student	Gym/Weight Room	Addressed in FMP	
Honors Prog	Faculty	Honors Program - Dedicated office/lounge/space for the LPC honors transfer program, this could be similar to student learning community space with perhaps one faculty office. Potential locations: the new 2100/2200, 2401 (once the tutoring center moves), or the proposed student center.	Addressed in FMP New Project B2100	
Honors Prog	Faculty	Honors Program - Recommend space for honors program leaving community. Transfer institutions require office and student interactino space. Potential places include 2100, 2401 or student center.	Addressed in FMP New Project B2100	
Horticulture	Faculty	Hort - Outdoor Patio. The master plan lists an outdoor learning patio (covered); our current outdoor classroom is an essential element in the Hort yard, so this outdoor learning patio sounds like a great idea. Need more info on this patio: where it will be located, how protected from the wind, etc.	This will be deternimed during design phase of the project.	
Horticulture	Faculty	Hort - The roadway intersection to the proposed Hort locatino is not visually inviting. Also, M&O is not overly attractive either. So I am concerned as to the visual message Hort students will see every time they head to class. Maybe an "easy fix" is to improve the intersection and put the proposed orchard SW of M&O. Maybe a nice walking path thru the orchard could provide that "connectivity" to main part of campus.	This will be deternimed during design phase of the project.	
Horticulture	Faculty	Hort Building and Outdoor Elements are located far away from many of the student servcies such as the library, cafeteria, bookstore, etc. yet many students regularly use these services. Please show some ways to crate "connectivity" between the Hort elements and these services. Or (not likely) move the Hort elements closer.	This will be deternimed during design phase of the project.	
Horticulture	Faculty	Hort Location - The proposed Hort location is basically at the very top of the hill, so it will be very, very windy. How has the design team considered this important environmental factor while doing their preliminary layout?	This will be deternimed during design phase of the project.	
Horticulture	Faculty	Hort program should move to where PS/Auto/Welding is planned currently. Use space to south/east of ground mount solar farm for growing plants and vines - sloped space can be terraced.		
Horticulture	Student	Horticulture & Welding have to be built first before STEAM area can begin. These classes have specialized work spaces and cannot move to regular classrooms.	Addressed in FMP	
General	Student/Faculty	HSI Club Building	Addressed in FMP Student Center	
General	Faculty	Instrument storage - practice rooms	Address in Renovations of B4000	
Humanities	Faculty	Humanities cluster meeting space.	Addressed in STEAM Project	
General	Faculty	Humanities cluster meeting space.	Addressed in STEAM Project	
General	Student	Kitchen	Addressed in B2100 Project.	
General	Student	Kitchen - Place to buy snacks and a fridge.	Addressed in B2100 Project.	
General	Student	Lactation Station	Currently working on. Should address in FMP code requires at least one with a new project on campus.	p 85
General	Student	Landscaping: Some areas on the plan show trees being planted where trees already exist. Be more thoughtful when replacing trees.		
General	Student	Large center for fire tech/acacemy	Addressed in FMP	
General	Faculty	Learning community style space for students in the honor program. A model space would might be that in building 1000 (see omoji/Puente). Buildings to house this might be 2100, 2401 or student ctr	Can be addressed in the B2100 Project?	We don't get into this level of detail, but yes, this would be accomodated in B2100, if prioritized
General	Student	Science Building Expansion	Addressed in FMP	

General	Student	Showers	Addressed in current projects.	
General	not disclosed	Showers, 20 mens 10 womens	Addressed in current projects.	
Safety	Student	Simulation rooms (3) instead of (2) 750 sq ft rooms	believe this is in relation to the Campus Safety Complex Project - will be addressed during design phase of project	Mentioned 5 times
General	Student	Soccer field should be real turf.	Addressed in current projects.	
General	Student	Softball Field. Not sure if we need a softball field but if we have one it should be real grass.	Addressed in FMP - Decided durign design of project	
General	Faculty	Space in general, use what is left smartly. We can ask for more money, when all the space is gone, its gone.		
STEAM	Student	STEAM Building is essential - increased # of science labs are a must. Many students want to go into sciende field but the classes here are limited due to space.	Addressed in FMP	
Bldg 4000	Faculty	Storage for large scenic items and furniture props reused by production.	Addressed in FMP	
General	Student	Student Union	Addressed in FMP Student Center	
General	Student	Study Hall	Addressed in FMP B2100	
General	not disclosed	Study Hall	Addressed in FMP B2100	
Safety	Student	Study hall for public safety students	Addressed in FMP - Will be addressed during design phase	Mentioned 9 times
		Table 5.15 on page 105 is not clear on B4000 Renovations need to expand to be clear	add bullet points to address overall renovations of B4000	
Viticulture	Faculty	Viticulture: tasting room and patio (covered) sounds like a great idea, the design firm should be told that is a priority. From experience we've all seen great ideas "value engineered" out, so I think its important to tell the design firm priority items to be kept in the proposed design.	Addressed in the FMP	
General	Student	Washer/Dryers	Not intended at this time	
General	Student	Pg 106 calculations of space is incorrect. 2 rooms at 375 ea., not 275 each. Total space should be 1500	Please review and revise - this is regarding the shared space undert Bio.	changed
