Excellence Completion
Equity

Planning Priorities for 2014-2015

- Support for the curriculum process
- Technology utilization with an emphasis on staff development
- Success and persistence through the Basic Skills sequence
- Accreditation

Goal

California Board of Governors

Over the next 10 years, state officials want 225,000 more students to earn degrees or transfer to four-year schools spread out over that time period. By the time the class of 2023-24 graduates, the goal is to have 62% of students across 112 campuses reach one of those two objectives — a significant boost from the current 48%.
