Subject: Re: Off campus

Andrea is pulling a list without addresses. I will ask the work study to put addresses on through Val once we get that, for the LPC classes at high schools.

In future terms, Stuart McElderry's area will facilitate the high schools classes. Since we have more of the history, for the past year at least, in my division, we can help out

Thanks,

Don

Subject: Re: Off campus

There are LPC classes offered in the high schools. One of us in academic services could provide with a list of classes at high schools. Addresses for the sections are in our class schedule online. Andrea may be able to run a report on it, I will ask her on this email to see if there is any kind of report to run easily for our off campus classes with addresses.

The Sheriffs Academy is run of campus, through the Alameda County Sheriffs office. The Public Safety program manager's office can provide more of that information, so I am copying Chad McMullen.

Hi all,

If there were any off-site programs being offered in 2017 (January-December) could you send the addresses of those programs to Sean Prather so he can gather data for our Clery Report. Thank you in advance.

John
