November

Start creating!

Projects due in
March

Exhibit and
Awards in March

Work with LPC
friends, class-
mates, club
members, or on
your own!

THE LIVING GALLERY

LPC STUDENT ART EXPO

FALL 2026 - SPRING 2027!

Featuring Kinetic and Immersive Art

Check LPC Art on Campus
webpage for more info:

Open to student clubs, individual students, and groups of students.

PROJECT REQUIREMENTS

- include movement
- may include sound and/or video
- explore themes of nature landscape, wildlife, conservation
- incorporate recycled / found / used objects and materials

EXAMPLES OF KINETIC ART

- mechanical kinetics are powered by motors or gears
- natural kinetics move with forces like wind or water
- optical kinetics create the illusion of movement (e.g. patterns or visual effects)
- interactive kinetics respond to viewer input
- light-based installations use light for their motion and effects
- sound or video art can create immersive experiences
