

DEGREES & CERTIFICATES

INTERIOR DESIGN ASSOCIATE OF SCIENCE (AS)

About the Program

The Associate of Science in Interior Design offers students a creative approach to learning Interior Design, and the opportunity to earn their degree while working in the Interior Design field. This solid Interior Design program contains practical course content, work experience, and overall design projects that promote graduates to the working world of being an Interior Designer. Work experience or internships are encouraged.

Program Goals and Objectives

The Associate of Science in Interior Design is designed to provide our graduates with the knowledge and education of Interior design so that they are prepared for a career in Interior Design. Our program helps students obtain practical life skills and career educational technology through this program. This CTE program provides students with the basic skills to obtain a job in the design field.

Career Opportunities

Graduates can expect to work as designers in: architecture offices, commercial design firms, selling furniture or other design products, their own design company, home builder's design centers, etc.

Program Outcomes

- Upon completion of the AS in Interior Design, students are able to demonstrate the skills and knowledge learned through coursework to meet CSU transfer requirements.
