CLI recap – Maria Glidden shared – All the energy, force to be reckoned with. Sharing with others individually and campus wide. Helps her appreciate what we have on campus. Aubrie shared – getting to bond, share with others, she enjoyed time with folks. Next year, CLI will be at the end of June, in Sacramento. She will email out a save the date.

There is an opening for a CS chair on Guided Pathways. Gives us an opportunity to speak up. There are also committees that we need people for, so if interested, please speak up. We want to make sure our voices are heard. Link in emails sent out. Questions ask Aubrie.

Convocation – There will be a CS session at the end of day; Fun activities, getting to know each other across the district. Ideas? Please send to Aubrie so she can share with District office and Chabot.

Flex day ideas – need ideas. Meeting with David Powers on 7/3 to brainstorm. Aubrie will share details later. She will send out a survey to understand what we need. David R. asked about the new professional development area and what the status is. Aubrie has heard nothing back from Dr. Foster. She meets with him in Aug. Franklin Covey – a lot of sessions that they can provide such as conflict resolution, managing difficult situations, etc. David R has some resources that we could use. It might be a good opportunity. The cost is mid-range, about 2 hours interactive - \$2000.00 – like a keynote for classified but with materials. Aubrie asked David to email her with info. Flex day will be very mixed. We can look at using Franklin Covey for the spring.
