

Goal of this session: Participate in courageous conversations about enhancing our student experience along their pathway.

Please ask someone in the group to jot down ideas that come up during the FLEX Day session. The Guided Pathways Steering Committee would like to use this to inform our work.

Pathway Name: _____

Reflect on your Pathway Student Demographics Sheet and compare it to the College-wide Data. Some things to consider:

- What patterns do you see? What surprised you? What concerns you?
- Who is less represented in your pathway? Who is more represented?

What can we do this year to improve the experience for our students within our sphere of influence?

- To increase student retention and success, especially for our disproportionately impacted students?
- Address any equity gaps, barriers, and needs?
- To increase the number of our students completing a comprehensive ed plan (or have a clear pathway to completion)?
