Three-Year Planning Template for Non-Degree/Other Courses

Name of Department: Mathematics

When planning assessments for courses that are not part of a degree you are assessing, consider selecting SLOs that correspond to a theme, concern, or questions that your department would like to learn more about. This information can also be used when writing your program review. Briefly explain what you would like to find out.

We decided to focus primarily on the problem solving and modeling SLOs for all of our mathematics courses. Problem solving is a core skill in these classes, with modeling being the next step in the skill tree. Exploring students' ability to complete these tasks will help us identify holes in their foundational knowledge and ideally give us a better direction to adjust how the material is presented.

Instructions:

1. In the Course column, list the courses that will be assessed.
2. For each semester, indicate which CSLO(s) you plan to assess.

	YEAR 1		YEAR 2		YEAR 3	
COURSE	**FALL 2026**	**SPRING 2027**	**FALL 2027**	**SPRING 2028**	**FALL 2028**	**SPRING 2029**

Name of Department: Mathematics

When planning assessments for courses that are not part of a degree you are assessing, consider selecting SLOs that correspond to a theme, concern, or questions that your department would like to learn more about. This information can also be used when writing your program review. Briefly explain what you would like to find out.

These are all of the support style courses for the department. The goal for these classes is very different. Ideally, students are learning how to be better students and to identify resources for help.

Instructions:

1. In the Course column, list the courses that will be assessed.
2. For each semester, indicate which CSLO(s) you plan to assess.
